

# Artevia®

## FEATURES:

- Artevia® decorative concrete combines design and performance with a rich color palette and beautiful textures including polished, stamped and exposed aggregate effects.
- Ideal for both indoor and outdoor applications.
- Customizable to match any design aesthetic.

**Artevia® was used in the construction and design of World of Coca-Cola in Atlanta, GA.**

#### **ADDITIONAL INFORMATION:**

- Concrete is produced from natural materials and finished product appearance may vary. Always have a sample produced with the actual materials that will be used for the project.
- Sales and QC team can make samples before pour.
- Not usually used in DIY market. Higher skill level required.
- Lead time is required for sampling and approvals.
- Everything batched at the plant. No need to add anything at the job site.
